The ScanCell® System

ScanCell® is our range of high-quality mobile storage solutions that utilises our modular system of trays and baskets.

The ScanCell® range is fully customisable and has a wide range of clever accessories which create a wealth of design combinations. ScanCell® products are built from high-quality materials which have been carefully selected to meet rigorous durability targets and strict hygiene criteria.

Key Benefits

- **Customisable & Versatile**
Tailored designs and accessories to fit specific job functions and departmental needs.
- **Easy handling**
Lightweight trolleys with alubond side panels and equipped with high-quality swivel casters for effortless maneuvering.
- **Ergonomic**
Designed to enhance comfort and improve the working environment.
- **Modular**
Fully compatible with other ScanModul® ISO modular products for seamless integration in the workflow.

The ScanCell® System

The mobility of ScanCell® trolleys enables easier work processes for treatment procedures and greater access to surrounding areas when cleaning. ScanCell® is without a doubt the flagship within mobile storage solutions and we are not surprised that it has been a continuous source of inspiration for many manufacturers.

Building on our ISO certified modular system for trays and baskets, you can configure your own trolley following some easy steps.

1. **Determine the trolley's dimensions.**
2. **Choose a front for the trolley.**
3. **Choose the colour of the body.**
4. **Configure the trolley with trays and baskets.**
5. **Customise the trolley with our wide selection of accessories.**

Please see the following page for a simplified overview. The ScanCell® series provides full flexibility in customising a product to meet your criteria and needs, whilst being fully integrated in the overall modular system. With more than 5,000,000 combinations possible ScanCell® offers you a one stop mobile storage solution from the central storage function to the point of usage.

With the ScanCell® system we have catered to all your needs for mobile storage. Each trolley is fitted with four high quality swivel wheels for increased maneuverability. ScanCell® products are built from high-quality materials which have been carefully selected to meet rigorous durability targets and strict hygiene criteria.

More Information

Our consultants are available to guide you through our full product range and design specific solutions for your unique storage and logistical needs.

Top 6 features for ScanCell®

- ScanCell® fully integrates with our modular system
- Equipped with 4 swivel wheels (2 with brakes)
- Hygienic and ergonomic design
- Available in different colours
- Lightweight
- Trolleys with Vario™ side panels can be used with relief wheels and safety stops for baskets

W 462 x D 706 mm

b

W 662 x D 494 mm

d

W 462 x D 494 mm

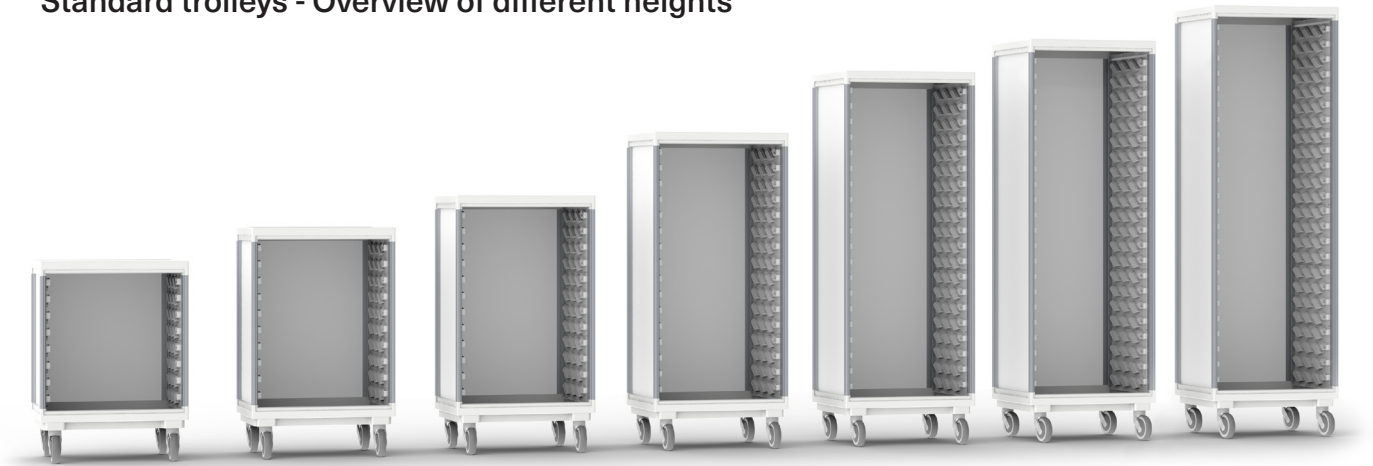

Three basic dimensions

To make our trolleys as flexible as possible, the ScanCell® trolleys are available in 3 different basic sizes.

In this way, all possible variants of use can be made possible. The use of our modular system is supported in a unique and meaningful way.

Standard trolleys - Overview of different heights

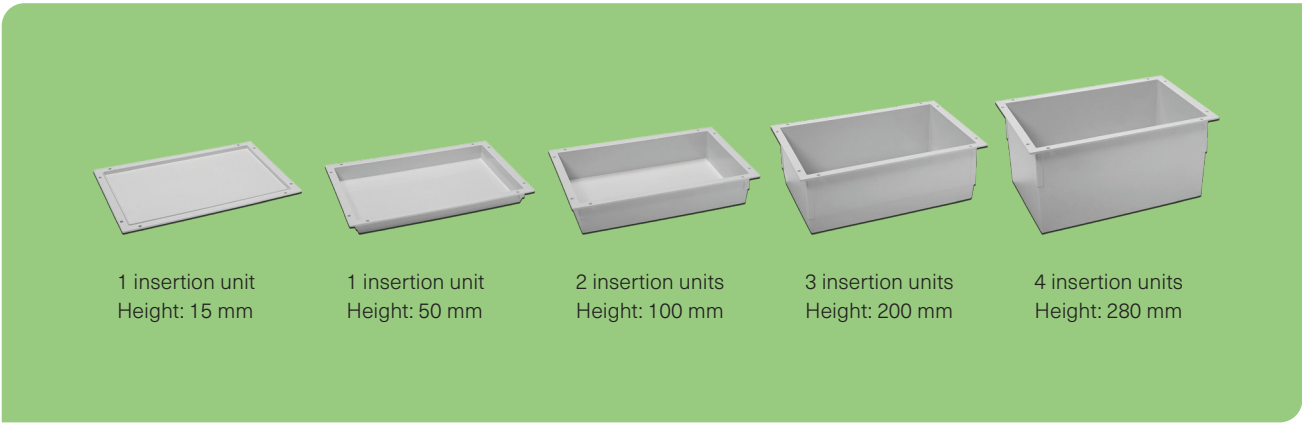

M60	M75	M90	M120	M150	M165	M180
8 insertion units*	10 insertion units*	12 insertion units*	16 insertion units*	20 insertion units*	22 insertion units*	24 insertion units*
Height: 905 mm	Height: 1055 mm	Height: 1205 mm	Height: 1503 mm	Height: 1803 mm	Height: 1950 mm	Height: 2103 mm

** For trolleys with roller doors, 1 insertion unit less*

For more capacity at a similar height, please refer to ScanCell® - Type B Flat Bottom trolleys starting on p. 27.

Five heights of insertion units

The ScanCell® System

Seven front finishing options

7 possible front finishings allow you to equip your trolley in such a way that it fits best for your personal area of application. Whether with doors, glass doors, drawers, roller shutters or simply open - you have the choice.

1. Open front

Open access to the trolley.

2. Solid doors

Solid doors with high quality hinges.

3. Glass doors

Doors with hardened glass inserts allowing to visually identify the contents.

4. Roller door

Can be equipped with brackets for removing roller door when cleaning the trolley.

5. Telescopic drawers

Drawers mounted on telescopic runners allowing for 110 % extraction of the drawer for excellent accessibility.

6. Vario drawers

The handle is attached directly on the modular tray for easy opening of the drawer.

7. Monoblock drawers

Drawers with seamless handles, resulting in a clean and pure design.

Bring colour to your workspace and customise you ScanCell® trolley!

Sidepanel customisation

You have the option to adjust the look and feel of your ScanCell® trolley to your liking. The sidepanels can be customised with one of our standard or special colours. In addition, you can have them printed with text, such as department information, or even a logo. This allows you to alter the appearance of your new furniture in such a way that it suits your needs, and fits in perfectly with any existing interior.

Secure Medication Distribution & Mobile IT

In the context of medication security, the ability to lock medication carts is becoming increasingly important, as well as controlled access to medication.

Access to the EPR (Electronic Patient Record) is also becoming increasingly important.

Since ScanModul® acquired Belintra the offering for Secure Medication Distribution & Mobile IT has drastically increased.

Medicart Small with integrated IT

Medicart Standard with integrated IT

Powered IT Cart

Roll-IT

Secure Medication Distribution & Mobile IT

Medicart options for locking

We offer different solutions:

- **Integrated IT** = MEDICART with USB CONTROLLED ACCESS (1 zone or 2 zones).
- **No integrated IT** = MEDICART with keypad, integrated Salto, dormakaba or SimonsVoss badge lock, electronic number lock or badge lock

With every type of lock, an emergency opening is possible at all times.

USB controlled*
1 or 2 zones
